

**REMARKS**

Subsequent to filing the application papers on October 14, 2005, it was discovered that the wrong translation had been submitted. That translation applies to an application other than PCT/EP2004/050437. Accordingly, the correct translation is being submitted herewith, along with the requisite fee for late filing of the translation. It is respectfully requested that the originally-filed translation be canceled or otherwise removed from consideration.

Furthermore, the Preliminary Amendment filed with the original application papers was directed to the improper translation, and is therefore ineffective. Accordingly, this Second Preliminary Amendment is being submitted to make the appropriate changes to the text of the correct translation, namely the addition of section headings to the specification and amendment of the claims to remove multiple dependencies and otherwise place them in more conventional U.S. format.

The filing of the original incorrect translation was unintentional, and occurred without deceptive intent. It is respectfully submitted that the correct translation being filed herewith does not present new matter, since it is fully supported by the original PCT application. Applicants respectfully request that examination proceed on the basis of the correct translation submitted herewith, as amended by this Second Preliminary Amendment.

Should any questions arise in connection with this application, the undersigned respectfully requests that he be contacted at the number indicated below.

Respectfully submitted,

BUCHANAN INGERSOLL PC
